

RMO® Schweickhardt Precision cutters

Made using the finest surgical steel, our range of lightweight, precision cutters from RMO® ensure that routine orthodontic procedures are comfortable, safe and efficient.

High precision beaks for perfect cutting and holding and careful chamfering of all edges makes them a pleasure to use.

German made and designed to last, all our cutters are forged and finished by hand and feature cutting edges that can be sharpened or replaced. Each one comes with a 5 year guarantee on breakage or rust.

i00571 Extra Fine Miniature Cutter

- Cuts to a maximum of .012" (0.305mm)
- Extra fine tip for easy intraoral access

i00553 Ligature and Hard Wire Cutter

- Hard tool steel inserts
- Cuts to a maximum of .022" by 0.28" (0.559mm x 0.711mm)
- Pliers are designed for cutting wires with minimum force

i00552 Ligature Cutter

- Soft ligature wire only, up to .020" (0.508mm)
- Fine tips for easy intraoral access
- All edges are lip safe
- Hard tool steel inserts diamond honed

i00550 Distal End Cutter, Safety Hold (regular beak)

- Cuts hard wire and then safely holds the loose distal end to prevent the wire from going into tissue
- Designed for intraoral cutting and lip safety
- Cuts wire up to .021" x .025" (0.534mm x 0.635mm) and .026" round
- Not suitable for braided wire

i00551 Miniature Cutter

- Soft ligature wire only, up to .012" (0.305mm)
- Hard tool steel inserts diamond honed

i00554 (small beak)

- Small beak reaches the molar area more easily

For a limited time, these high quality cutters are available to purchase for a special price of £75 per pair excluding VAT.
